

KAVLI

Thursday
April 15, 2010

Joost van der Grinten Room, Faculty Industrial Design
Engineering, Landbergstraat 15, 2628 CE Delft

COLLOQUIUM

Immanuel Bloch

Exploring strongly correlated quantum matter in artificial crystals of light

Program

15.00 hr:

Minisymposium Quantum in Delft:

moderated by Yuli Nazarov

Speakers: Katja Nowacs
Jos Thijssen
Val Zwiller

16.15 hr:

Immanuel Bloch

17.15 hr:

reception

Immanuel Bloch will give additional lectures:

Thursday April 15 10.30 hr, room G, Applied Sciences

Introduction to cold atoms and optical lattices

Friday April 16 10.30 hr, room E, Applied Sciences

Non-equilibrium dynamics in strongly correlated
quantum systems

Immanuel Bloch
