

Thursday  
April 14 2011

TU Delft, Aula Congrescentre,  
Lectureroom A

# KAVLI COLLOQUIUM

## Ali Yazdani, Princeton University

Visualizing Helical Metals on the Surface of Topological Insulators

Ali Yazdani

15.00 hr:

Pre program

**Minisymposium on Gravity:**

Speakers:

Dirk Bouwmeester from Leiden University/  
UC Santa Barbara

'Investigating gravitationally induced  
quantum decoherence'

Erik Verlinde from University of Amsterdam  
'The emergency of gravity'

16.00 hr:

Break

16.15 hr:

**Kavli Colloquium Ali Yazdani**

17.15 hr:

Drinks & time to meet

Ali Yazdani will give an additional lecture:  
Friday April 15 at 14.00h, lectureroom F,  
Faculty of Applied Sciences  
'STM visualization of correlated electron states'

Kavli Institute of Nanoscience
